

Circle of Fifths Treble Clef

Instructions

- Complete the circle of fifths.

The diagram consists of a large outer circle and a smaller inner circle, both centered on the same point. Radial lines extend from the center to the outer circle, dividing it into 12 equal segments. Each segment contains a five-line musical staff with a treble clef. The segments are arranged in a circle, with a central circle containing a blank staff. The outer segments are partially filled with notes, and the inner segments are blank for completion.
